CLINTON COLLINS, Trustee.

REPORT OF FIREWARDS

The Firewards of Marlboro', respectfully submit the following report:

There were eight alarms for fire during the year. Six for brush fires and two for buildings.

April 15, 1910, an alarm for brush fire on land of Fred Hunt. Cause sparks from R. R. engine B. & M. paid expense.

July 7, 1910 three separate alarms for brush fire on land of Charles Buckminster. Cause, spark from R. R. engine. Expense paid by R. R.

Aug. 30 and 31, 1910 an alarm for brush fire near big trestle in little Canada. Expense paid by town of Marlboro'. These fires were under the supervision of C. B. Collins, Forest Fire Warden.

Oct. 23, 1910 an alarm for fire at Hearse house near cemetery. Cause, children playing with matches. No damage.

Dec. 14, 1910 an alarm for fire at Cheshire Blanket Mill. Cause, spark from boiler. Damage not known.

The Committee on Fire Alarm find that they were misinformed as to the cost of installing a compressed air fire whistle and that an additional sum will have to be raised or the project given up. But we would recommend that a sum of money sufficient to cover the expense be raised by the town at its Annual Town Meeting, March 14, 1911.

We believe each company has its full quota of men, and that each apparatus is in good condition and that the men are on the alert to respond to any fire alarm if they can only tell the difference between them so that they can tell which to take, their Bibles or the Steamer.

Respectfully,

W. W. APPLIN,	} Firewards of Marlboro'.
C. B. COLLINS,	
E. P. RICHARDSON,	

Marlboro', N. H. February—1911.

REPORT OF BOARD OF HEALTH

—O—

The Board of Health beg leave to report that there has been no contagious diseases (with the exception of a few mild cases of Measles) nor epidemics in town the past year.

No particular complaints have been made to us, but a few suggestions made, have been cheerfully complied with. So far as we know, the whole community has been in its usual healthy condition.

The sum of one-hundred dollars (\$100.00), voted at last Town Meeting to cover the sewer on Frost Street, was expended but the sum not being sufficient, the balance (about twenty-six dollars) was raised by personal subscription and the sewer is now in a good safe condition.

We would suggest that if similar conditions should hereafter exist that prompt measures may be taken to correct them.

Respectfully,

D. W. TENNEY,	}	Health Board.
W. H. ALDRICH,		
E. P. RICHARDSON,		

FROST FREE LIBRARY REPORTS

—o—

SECRETARY'S REPORT

The Annual meeting of Trustees of FROST FREE LIBRARY, was held Monday Oct. 10, 1910, at 3 o'clock P. M. In the absence of the president, LOWELL C. FROST, the meeting was opened by the Vice-President, Rev. S. H. McCollester. The Secretary, Mrs. Pease not being present, Rev. A. W. Frye was appointed Secretary Pro tem. The report of Secretary was read and approved, also that of the Treasurer, the latter stating that a balance of \$77.42 remained in the Treasury,

No special business of importance was transacted, excepting the Election of Officers, which was as follows:

President,	LOWELL C. FROST
Vice-President	REV. S. H. MCCOLLESTER
Secretary,	MRS. H. H. PEASE
Librarian,	CARRIE T. KNOWLTON
Treasurer,	LEVI A. FULLER
Executive Committee,	

Rev. S. H. McCollester, President,
Revs. J. S. Gove, John Kimball, and A. W. Frye
Messers. F. E. McIntyre and Merrill Mason.

MRS. H. H. PEASE,
Secretary.

LIBRARIAN'S REPORT

To the President and Trustees of FROST FREE LIBRARY, The Librarian presents the following report:

The Library has been opened 104 times during the past year and the circulation has varied but slightly from the past two or three years. The total number of books issued was 6347 and an average of 50 magazines a week were distributed.

While the per cent. of fiction was much larger than the other classes of reading, there was an increased call for biography, travel and history.

Seventy-two new books have been purchased this year, the set of "Famous events of the world's history," comprise one-third of this number.

Mr. Chas. Bonney and King Gillette of Boston, two New York publishers and Chas. Allen, formally of this town have each presented a book to the Library and the following Magazines have been donated, The Union Signal, from the W. C. T. U., The Bookman and Uncle Remus' Magazine, from the publisher, and the Housewife from Mrs. Sidney Bridges. Twenty-nine popular Magazines and papers are regularly subscribed for.

The books added this year as well as the Magazines have been thoroughly used, the only cry seems to be "more." Young children especially think they are overlooked in the purchase of books as there are very few suitable for use of children in the second and third grade of school work.

The circulation was greatest this Feb. and March and very light during the early summer. The largest number of books issued in one week was 170 and the smallest number was 71.

The rebinding of a large number of books in the spring brought the books into very good condition with the exception of the Alger books, which it seemed unwise to repair or replace.

The usual wear however will doubtless necessitate more rebinding within this year.

The auction sale of Magazines at the close of the year amounted to \$4.80, the amount collected for fines and the sale of Catalogs, brought the receipts to \$21.95. Expenditures as follows:

Levi A. Fuller, treasurer,	\$10 00
D. J. Hart, wood,	2 00
Chas. Bridgman, bristle broom,	1 75
2 m slips and paste,	1 00
F. E. McIntire,	60
Rev. A. W. Frye,	1 00
Freight,	42
Light fixtures,	1 21
Cash to balance,	3 97
	<hr/>
	\$21 95

Respectfully submitted,

CARRIE T. KNOWLTON,

Librarian.

Insurance, 71 00

Money needed in addition to amount required

by law, 1,300 00

Teacher of Drawing, Cooking, Sewing and

Manual training, 200 00

LEVI A. FULLER,	}	School Board
OLIVE M. KIMBALL,		of
RAY H. PAGE,		Marlborough.

SCHOOL SUPERINTENDENT'S REPORT

To the Marlboro' School Board:

I have the honor to present to you my first annual report as Superintendent of schools. As I undertook the work only last fall and have served but a portion of a year thus far, I may not be expected to render so full and complete a report as though my service had been of longer duration.

In assuming my duties I felt that my chief work would be in directing, guiding, encouraging and vitalizing the work of the teaching force, in a sympathetic and appreciative manner, to aspire to high ideals in their profession and utilize the work of the school-room as much as possible. With this aim in view the State program of studies which you adopted has been used as a working guide by the teachers and reports of their progress in the work have been made once in six weeks. Uniformity of work is sought in this way from our local teachers and incidentally it is uniform with the work of the rest of the State in general which is under supervision.

REAL EDUCATION

The day of strenuous competition in all walks of life has come with the result that the education of the child should be practical and useful not too theoretical or vague.

A large number of our local children enter the

ranks of the wage earners as soon as they are able to secure a certificate of employment. It should, therefore, be our object to prepare them not specially for a particular occupation, but with a view to make their school life fit their after life in such a way as to make them better and more efficient citizens in the walks of life which they pursue. This we have been able to do through the kindness and liberality of Mr. E. H. Kidder, together with the annual appropriation by the Town for drawing and manual training. A special teacher in drawing, cooking, sewing and manual training has been employed with these funds.

Construction of simple but educative objects has been carried on in the first four grades, one period each week; sewing for the girls and manual training for boys in the fifth and sixth grades, two periods per week; cooking and sewing, one period each, for the girls and manual training two periods, for the boys, in the seventh and eighth grades. One day each week has been devoted to drawing throughout the grades and one day to construction work in the three out-lying schools. The boys of the eighth grades have been given mechanical drawing. The work in these branches has been carried out along American lines. The aim has been to do or make useful things and not to do or make things which have no bearing upon actual American life which is the tendency of some of the foreign systems.

This real education does not make a specialist of the boy or girl in any of the branches taught, but it trains the hand to co-ordinate with the mind and teaches the child that real things are done in life. The child too often gains the idea from books that life is an abstraction and that we may

live without labor. Even the professions today are regarded as occupations. Success in them can be attained only by dint of the severest labor. The acquisition of manual skill improves and develops the mental powers. A first hand knowledge of physical things tends to increase their value to him and bring him into closer contact with his environment. It also gives him an appreciation of industry and art. It produces interest in his school life and in the activities of the world at large. The work has interfered in no way with progress in other subjects but has given strength and added interest to them.

A stove, sewing machine, tools and kitchen equipment, in addition to that used in the summer school, and two work tables, have been purchased with fifty dollars appropriated by you for that purpose.

As far as possible equipment such as benches, a table, shelving, etc., have been made by the boys of the seventh and eighth grades in a workmanlike manner.

The apparatus for these branches of work has been installed in the basement which is dry, airy and well heated and lighted.

Upon the discovery of the need of separating the kitchen from the other branches of this work the generosity of Mr. Kidder again manifested itself and sufficient funds were provided to build a kitchen in the north-east part of the basement. In building this, conformity with ideals in health and utility were sought more than elegance of equipment.

HIGH SCHOOL

The work of the High School has been good. Much interest has been displayed there and the spirit in which the work has been done is commendable.

New text books in physical geography have been added to our equipment and worn out text books in physics and geometry have been replaced with new at exchange rates.

Water should be provided in the Chemical Laboratory another year. Provision should be made for the purchase of a few more reference works. Electric Lights should be in the study room of the High School for social purposes.

TEACHERS

Our teaching force has been characterized by a spirit of loyalty to the aims and requirements of the school officials and a devotion to their profession which is commendable to a high degree. They may be assured that their efforts are appreciated by parents, citizens and school officials.

It was with regret that the resignation of Miss Elgie Adams was received owing to her ill health. Her work was efficient and her personality particularly well adapted to the work of the school room. Her place was filled by Miss Flora Applin. Miss Helen Kimball took the school vacated by Miss Applin and Miss Bessie White was appointed teacher at No. IV. This series of changes has worked well the progress of no school being interfered with. We were also disappointed to receive the resignation of Mrs. C. B. Collins our music

supervisor, which was occasioned by illness in her family, Mrs. Bertha Mathews was chosen to succeed her.

WRITING

Tests have been made of the pupils' writing. Each pupil, in conjunction with the teacher and superintendent, has been allowed to judge his own writing by comparing it to a series of samples, ranging from illegible to perfect writing on a chart. In this way the child gains a very good idea of the quality of his own writing and is possessed with an aspiration to improve it at other future tests. Much rivalry among the Pupils and the different schools is displayed as to their relative standing which is summarized.

PUPILS

Parents are advised not to send their children to school at too early an age. It is seldom the case that a child of five years can make much progress in school owing to the fact that its mind is not sufficiently developed. Conformity with school discipline by a child of too tender years often results harmfully both mentally and physically to the child. Six years is sufficiently young to admit them with the proviso that any below that age, sufficiently mature, may be admitted at the discretion of the school officials.

REPAIRS

The out buildings at No. II., should be renovated along modern lines.

A window is needed in the manual training department.

The vacant room below the chemical laboratory should be finished off and fitted for storing

books and supplies.

The school-house at No. III. (Depot School) should be renovated inside and out.

Black-boards should replace the painted walls in the recitation room of the high school, the I and II grade room, and the V and VI grade room. These rooms are partially fitted with slate. Slate is very cheap this year. It can be purchased (delivered in Marlboro') for 15½c. per square foot.

PLAYS AND GAMES

Teachers are admonished to exercise as careful supervision over the children during the recess periods as in school hours. All the teaching along moral lines is frequently allowed to be broken down at recess. A participation by the teacher in organizing their plays and games not only gives the teacher greater leadership among her children but eliminates many of the sordid features of school life. In this way the weak will be developed physically with the strong by being required to take some active exercises.

TEXTS AND APPARATUS

New geographies have replaced the worn out set. It is felt that the new series of Tan & McMurry which replaced the old series are pedagogically sound and adapted to our needs in every way.

Other books have been purchased to fill out partial sets.

A set of water colors was procured for use in drawing.

A short piece of blackboard has been installed in the manual training department.

In closing, your superintendent wishes to express his appreciation of the cordial manner in which the people of Marlboro' have received him and of the hearty co-operation of the school board in his work without which much would not have been accomplished.

Respectfully submitted,

CARL COTTON,

Superintendent.

Marlboro', Feb. 25, 1911.

CHARLES L. BEMIS, Treasurer.

—O—

This is to certify that we have examined the accounts of the School Board and School Treasurer, we find them correctly cast and well vouched.

C. B. COLLINS, {
F. D. HEMENWAY, } Auditors.

Marlborough, N. H., March 6, 1911,

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of the town of Marlborough, qualified to vote in district affairs:

You are hereby notified to meet at the town hall in said district on the fourteenth day of March, 1911, at two o'clock in the afternoon to act upon the following subjects:

- 1—To choose a moderator for the coming year.
- 2—To choose a clerk for the ensuing year.
- 3—To choose a member of the school board for the three ensuing years.
- 4—To choose a treasurer for the ensuing year.
- 5—To hear the reports of agents, auditors, committees or officers heretofore chosen and pass any vote relating thereto.
- 6—To choose agents, auditors, and committees in relation to any subject embraced in the warrant.
- 7—To see how much money the district will raise and appropriate for the support of schools.
- 8—To see how much money the district will raise for repairs and insurance.
- 9—To see if the district will raise a sum of money to continue a course in manual training, drawing, and the household arts.

10—To see what sum of money the district will raise to pay the district officers.

11—To see what sum of money the district will raise for supervisor.

Given under our hands this twenty-fifth day of February, 1911.

LEVI A. FULLER,	} School Board of Marlborough.
OLIVE M. KIMBALL,	
RAY H. PAGE,	

VITAL STATISTICS

—O—

To the Selectmen:

In compliance with an act of the legislature passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the Annual Report," I hereby submit the following.

FRED E. ADAMS, Town Clerk

WARRANT FOR TOWN MEETING

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Marlborough, in the County of Cheshire in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at the Town Hall in said Marlborough, on Tuesday, the Fourteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1—To choose all necessary Town Officers for the year ensuing.

2—To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

3—To see what sum of money the Town will raise for the support of the Electric Lights.

4—To see what sum of money the Town will raise for Memorial Day.

5—To see what sum of money the Town will raise for Old Home Day.

6—To see whether the Town will vote to ratify the action of various boards of selectmen in accepting various trust funds which have been received by said Town in trust and heretofore paid over to trustees appointed by said Town to hold trust funds.

7—To see whether the Town will vote to authorize future boards of selectmen to accept trust funds in their discretion from time to time which may be bequeathed or given to or for the use of said Town in trust.

8—To see if the Town will vote to build a sidewalk on the west side of Main Street, beginning at the south-east corner of Frost Street near the residence of J. H. Kimball, to connect with the one ending near the residence of O. E. Parsons; Raise money for the same or act in any manner in relation thereto.

9—To see if the Town will vote to cover so much of the brook as runs through the land of O. E. Parsons; Raise money for the same or act in any manner in relation thereto.

10—To see if the Town will vote to cover so much of the brook as runs through the land of W. M. Cheesman; Raise money for the same or act in any manner in relation thereto.

11—To see if the Town will build a dam on the brook near the Library; Raise money for the same or act in any manner in relation thereto.

12—To see if the Town will vote to continue the Liquor Agency or act in any manner in relation thereto.

13—To see if the Town will vote to establish a light on Laurel Street at the second turn above the residence of Walter Morse; Raise money for the same or act in any manner in relation thereto.

14—To see if the Town will vote to establish the following lights; One near the residence of L. M. Flint and one at the corner of Roxbury Road near reservoir; Raise money for same or act in any manner in relation thereto.

15—To see what action the Town will take in regard to the fire alarm; Raise money for the same or act in any manner in relation thereto.

16—To see if the Town will vote to build an iron bridge over the river near the residence of F. T. Wiswall; Raise money for the same or act in any manner in relation thereto.

17—To see if the Town will vote to have Main Street treated with Tarvia or some such material, from Engine Hall to Water Street. Raise money for the same or act in any manner in relation thereto.

18—To see if the Town will have four Electric Lights over Graniteville Cemetery Hill. Raise money for the same or act in any manner in relation thereto.

19—To see if the Town will have two Electric Lights on Cottage Street. Raise money for the same or act in any manner in relation thereto.

20—To see if the Town will vote to buy of O. E. Parsons so much land as is needed for a drive-way around the Town Hall. Raise money for the same or act in any manner in relation thereto.

21—To see if the Town will authorize the Selectmen to borrow money on the credit of the Town.

22—To hear reports of the Town Agents or Committees or other Officers heretofore chosen or appointed and to pass any vote relating thereto.

23—To act upon any other business that may legally come before this meeting.

Given under our hands and seal this twenty-fifth day of February, in the year of our Lord nineteen-hundred eleven.
